Aspiring software engineer with hands-on experience developing full-stack web applications using Angular, Java, and TypeScript. Completed an internship at The Home Depot, contributing to internal tooling, cloud infrastructure automation with Terraform, and Agile collaboration through daily standups and pair programming. Strong foundation in computer science with an Associate's degree and ongoing Bachelor's studies. Proficient in modern development tools and eager to grow in a professional engineering environment.

---

## EXPERIENCE

### **Software Engineer Intern** — The Home Depot, Atlanta, Georgia

May 2025 – Jul 2025

- Upgraded a legacy full-stack internal application used by 250 internal users using Angular, Java, and TypeScript, now running in production and contributing to improved performance and cost savings for the company
  - Supported site reliability tasks in GCP and automated infrastructure roles using Terraform
  - Participated in pair programming, code reviews, and daily standups to support agile development practices
- 

## EDUCATION

### **Bachelor of Science in Computer Science**

Florida Atlantic University, Boca Raton, FL — *Expected Graduation: 2028*
